

**Dr. Girish Pattappa**  
**Department of Musculoskeletal Tissue Regeneration**  
**Orthopaedic Hospital König-Ludwig-Haus (KLH)**  
**University of Würzburg**  
**Würzburg, GERMANY**

Girish graduated with Masters in Engineering in Medical Engineering from Queen Mary, University of London, London, UK. He then began his PhD at the same institution in the Department of Engineering and Materials Science with a focus on cell and tissue engineering. Upon graduating in 2010, he subsequently began his postdoctoral research career at AO Research Institute, Davos, Switzerland and further positions in Canada and France. He then continued his research career in the Laboratory for Experimental Trauma Surgery, Department of Trauma Surgery, University Hospital Regensburg from June 2016. In April 2024, he became a senior scientist upon joining the Department of Musculoskeletal Tissue Regeneration, KLH & University of Würzburg, Germany. He has published 30 publication and book chapter articles with a primary focus on cartilage and meniscus regeneration using cell-based therapies and environmental stimuli. He has been part of EU consortia grants (MEFISTO, NetwOArk) and awarded start-up grants (ON Foundation). Since 2019, he been the Social Media Manager for the European Orthopaedic Research Society (EORS) and has been abstract reviewer and scientific committee member for various orthopaedic conferences.
