We congratulate Marco A. Ataide to his exceptional work, that was now published in Nature Immunology

Datum: 14.10.2020, 08:22 Uhr

Marco and his colleagues found out that the transcription factor BATF3 regulates the survival of memory T cells. Their findings can be used to further improve the CAR-T cell therapy.

BATF3 programs CD8+ T cell memory; DOI: 10.1038/s41590-020-0786-2
