Fee Schedule of the Core Unit Research Data Management (cRDM)

at the IZKF, University Hospital Würzburg (UKW)

Valid from: February 2026 · Prices in €/year · This fee schedule forms part of the Regulations for Use (Section 13)

Funding Model

The cRDM operates under a hybrid funding model consisting of institutional base funding, project-specific cost sharing, and targeted development resources. Annual fees are based on service level and storage size, covering system maintenance, secure storage, hosting (RZ/SMI), and licensing and personnel costs.

Service Plans and Annual Fees

Plan	Services included	S · 5 TB	M · 10 TB	L · 20 TB
Basic	Nextcloud storage, file sharing, versioning, basic support	1,500 €	2,000 €	3,000 €
Standard	+ OnlyOffice collaboration, real-time co-editing	3,500 €	4,000 €	5,000 €
Advanced	+ 2× training sessions/year, DMP creation & maintenance, FAIR audit, prioritised support, HPC on request	**8,500 €**	**9,000 €**	**10,000 €**

Storage logic: a consistent **100 €/TB/year** applies across all plans (based on full RZ cost of 78 €/TB plus backup and support overhead). S (5 TB) → M (10 TB): +€500 · M (10 TB) → L (20 TB): +€1,000 · Advanced L = €10,000 (maximum price).

Additional storage beyond the plan tier: 100 €/TB/year (same rate).

The Advanced Plan includes

- 2 training / onboarding sessions per year (for new team members)
- DMP creation and ongoing maintenance
- FAIR compliance audit
- Prioritised support and a dedicated contact person
- HPC / JupyterHub access on request (via Bioinformatics unit, subject to availability)

Example: DECIDE (SFB 1583) — Advanced L (20 TB) = 10,000 €/year

Billing and Conditions

- Invoicing: annually on 1 January
- Internal UKW/JMU groups: internal cost transfer (Interne Leistungsverrechnung)
- External partners: formal invoice in accordance with §14 UStG
- Plan changes: annually on 1 January, with at least 3 months' notice
- Fee adjustments are communicated with at least 3 months' notice
