**ACADEMIC CALENDAR LESSONS AND EXAMS**

**I semester:**
- early September: begin Italian language courses
- end of September: Welcome week and Faculties Welcome day
- early October: begin lessons
- end January: end lessons
- February: exams (winter session)

**II semester:**
- early February: begin of Italian language courses
- early February: Welcome week and Faculties Welcome day
- early March: begin of lessons
- end May: end of lessons
- June/July/September: exams (summer session)
At Sapienza there are 5 degree courses in "Medicina e Chirurgia" of which 4 are Italian language courses ("A", "B", "C", "D") and 1 English language course ("F") all located in Rome at the Hospital Policlinico Umberto I. There is also another Italian language course in Medicine and Surgery "E" located in the peripheral site of Sapienza in Latina, which is a town 100 km far from Rome. The criteria by which we divide the incoming medical students in the various courses in Italian ("A", "B", "C", "D") is that all the students coming from the same country are assigned to the same degree course. This is the subdivision of the students in the "Medicina e Chirurgia" Italian language courses according to the following criteria:

Courses/Countries of origin of the incoming students

Course «A» Austria, Cyprus, Germany, Portugal, Norway
Course «B» Belgium, Denmark, France, Netherlands, Czech Republic, Greece
Course «C» Croatia, Poland, Slovenia, Slovakia, Turkey, Hungary, Romanian, Bulgaria, Lithuania
Course «D» Spain
Course «F» As for the English language course "F", the number of places is limited to 5 medical students per semester. The admission criterion is the following: the first 5 students who reply to a specific email that we send simultaneously to all incoming students at a specific time, are included in the English language course.

Also for Nursing there are 4 degree courses (A-B-C-D) located at the Hospital Policlinico Umberto I Roma. Incoming students will be distributed in the different courses as shown below:

Courses/Partners University

Course «A» Barcelo02, Cordoba, Murcia, Oviedo, Valencia, Valencia LaFe, Lisieux, Paris393
Course «B» SEDI CIVIS (Madrid04 – Athene) + Leiria, Monte Esgas Moniz
Course «C» in addition to the Guarda, Badajoz, Burgos partners, this group includes the partners whose Erasmus code - without considering the letter identifying the country of origin - starts with the letter A up to L
Course «D» in addition to the Madrid28, Valencia011 partners, this group includes the partners whose Erasmus code - without considering the letter identifying the country of origin - starts with the letter M up to Z

For each of these courses there is only one degree course, in which the incoming student will be automatically inserted.

All lessons and exams of the degree courses in Medicine and Surgery (A-B-C-D), Dentistry, Nursing, Midwifery, Physiotherapy, Speech Therapy, Occupational Therapy, Psychomotricity) are in Italian, as well as internships. Lessons and exams of the Medicine and Surgery course «F» are in English, while internships are in Italian language. We strongly recommend a good knowledge of the Italian language (minimum B1 level), even if we don't request a mandatory certification.
